## PROJECTS

1. Piknic – Event Equipment Rental Platform <https://www.piknicuz.com/>

Built the frontend of a responsive web platform using **React**, **Redux Toolkit**, and **Tailwind CSS**. Enables users to browse and rent event furniture and equipment. Designed intuitive UI, product listings, and an integrated contact form for a seamless user experience.

2. WeatherApp- <https://weather-app-tau-blond-29.vercel.app/>

WeatherApp – Developed a responsive weather application using **React**, **Tailwind CSS**, and **React Query**. Integrated with a weather API to display real-time data (temperature, humidity, wind speed, pressure, sunrise/sunset). Added city search functionality and automatic location-based weather detection with a clean and user-friendly UI.

3. Desserts Shop UI <https://gorgeous-kangaroo-a6b7e0.netlify.app/>

This project is a **user interface for an online dessert shop** where users can browse, select, and order various desserts.

4. Nomex Logistics Website

<https://kz-logistika-git-main-jasurbeks-projects-33e05eeb.vercel.app/>

This project is a modern **logistics and transportation company website** developed with **React** and styled using **Tailwind CSS**.
